
OWNING LUKE

Luke Griffen Owners Club

Who is Luke?

Luke is a 35 year old software engineers from London. An true sub and exhibitionist at his core.

His master started Luke on a long-term program of submission aimed at ensuring he becomes public property. Part of this program includes a public website (owningluke.com) of which he has no control over and publicly posted images on his X feed ([@lukegruk](https://twitter.com/lukegruk)).

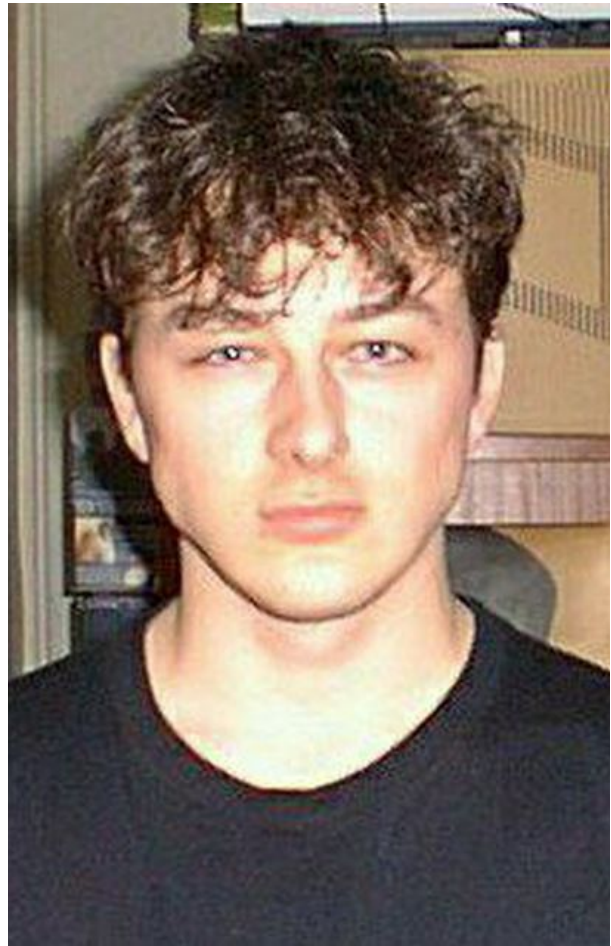

His website is owned by a third party. Luke has no login for the website administration and so is unable to control the posts, galleries and images that are posted. This gives him less power over his own being than ever before.

Become an owner today! Simply visit www.owningluke.com

Luke's master has given him 4 simple rules:

1. Luke must show his cock, live and on demand whenever requested.
2. Luke must repost any tweet or link where he is exposed.
3. Luke must share his nude archives with anyone who asks and must respond and engage in chat requests.
4. Luke must serve all men, in any way they see fit.
